Environmental Initiatives on Campus:
The Sustainable Energy Tribe

In response to growing environmental concerns on campus and in the Atlanta area, many green initiatives are being planned at Georgia State. Want to get involved? The Sustainable Energy Tribe is an environmental group that advocates for greater use of clean renewable energy on campus. Their goal is to make Georgia State University more efficient and productive. The recycling program and green free proposal being deliberated by the Georgia Board of Regents are accomplishments of this group, and their long term goals include bringing solar power and alternative fuel sources to Georgia State. If you are interested in alternative energy technologies or any aspect of environmental activism please visit www.setribe.com for contact information.

Want to read more about how you can help the environment? Here are some books available at the University Library:

- The Earth's Blanket: Traditional Teachings for Sustainable Living by Nancy J. Turner. General Collection, GF21 .T87 2005
