A SIX-QUESTION FRAMEWORK FOR EVALUATING POLICY

1. **WHAT** is the important (perhaps troublesome) trend related to health in Georgia? What is the shape of this trend over the past several years?
2. **WHO** are the stakeholders concerned about the trend?
3. **WHY** this trend (what's the cause, what is responsible)?
4. **WHERE** is there leverage (some policy) to address the underlying cause of the trend?
5. **HOW** will it work? How will it play out over time? How might unintended consequences occur? How might the policy positively or negatively impact:
 - a) Health status?
 - b) State health spending?
 - c) Health care system?
 - d) Health equity?
6. **WHEN** would the policy create an impact on health status? When would you see an improvement in some other indicators (i.e., spending, services)?
