The Missing Piece

RELATIONSHIPS
Stakeholders

Stakeholders are special snowflakes!!

• No two stakeholders are created alike
• Identify who they are, what they like, how they communicate
Tale of Two Snowflakes

**Provost**
- Demographics: Of an older age/generation
- Values: efficiently using money, doing more w/less
- SERs contribute to: student learning, institutional effectiveness
- CLV: put together a report demonstrating (w/assessment evidence) how our resources save the inst. $$$

**“Typical” Undergraduate**
- Demographics: Of a younger age/generation
- Values: technology, access to resources fast
- SERs contribute to: finding resources for their paper - want to get an A
- CLV: Draft a welcome letter to students identifying (w/assessment evidence) how the library helps get students As (and makes parents proud!)
Know Your Audience

• Before you start, know your audience
  – Building Stakeholder Profiles
• Read over & fill in the handout
• Using the list on the screen (next slide), or ideas of your own, come up with a list of partners and fill in the variables on your sheet.
  – Who are your stakeholders?
  – What are their values and needs?
  – How will you communicate with them?

Elevator Pitch to Faculty Member

The SLU Library System offers personalized research guides for courses each semester. This contributes to student learning and research productivity by giving the students scholarly resources in one, easy to find location. If we create a guide for your course, you may see an increase in the quality of your student papers, especially in the types of resources your students use. I would love to work with you to help improve your students’ research output, and collaborate on a guide that fits your needs.
Wrap Up
Thank you!
