Outlook for Georgia's FY13 Budget

- Growth projections: revenue estimate based on 4.9% growth over FY12 (for Dept. of Revenue collected funds)
 - Currently YTD coming in at 4.8% over FY12
 - Growth of \$789 million over FY12

FY13 Demands

- FY13 Shortfalls include:
 - \$354 million in Medicaid and Peachcare shortfall from population growth and issues in underfunding
- \$170 million available for K-12 RSR Midyear Adjustment

FY14 Demands

- Assume 5% growth over current:
\$843 million
- Areas of Demand
 - \$336 million in Medicaid growth
 - \$235 million loss from Provider Fee
 - \$43 million for Behavioral Health for DOJ Settlement
 - \$65 million est. ERS increase to meet ARC
 - \$55 million TRS increase to meet ARC
 - \$734 million in required funds**

 - \$100 million est. for K-12 growth
 - \$100 million est. for Higher Ed growth

Future Expectations

The theme of this next decade is going to be governmental retrenchment.

In the near term:

- Federal fiscal cliff will include 8% across the board cut for education programs. Even if resolved, education is part of the domestic discretionary budget that is likely to be disproportionately cut.
- State growth is likely to be consumed disproportionately by health expenses and will only be sufficient to cover basic growth needs and fill holes created during the recession.
- OPB has asked agencies to develop 3% cut scenarios for FY13A and FY14
- Local revenues will see several more years of pressure from declining property values.

Era that is going to require new thinking about more effective/efficient ways to do business and perhaps new ways to raise revenues to support selected government services.
